Re:	<u>Response to Public Records Act Request obo Inner City Education Foundation Public Schools ("ICEF").</u>
------------	---

Dear ██████████

Please be advised we represent Inner City Education Foundation Public Schools ("ICEF"). I am writing to respond to your Public Records Act requests submitted to our client, pursuant to Cal. Govt. Code §6250 et seq. on or about August 23, 2019.

Your Public Records Act requests ask for, among other things, "all emails from January 1, 2016 through June 30, 2019 in the possession of Parker Hudnut, Mr. Gomez, or Ms. Owens-Lincoln in any email account with which [they] conduct public business in the specified date ranges that are to/from/cc/bcc any of the described accounts, domains or person."

In addition, your requests ask for, among other things, "all emails from January 1, 2019 through June 30, 2019 which are to/from/cc/bcc lauds.net, any ICEFPS Prep Board member."

In particular, the records required to respond to your Public Records Act request necessitate ICEF to search for, collect, and appropriately examine a voluminous amount of separate and distinct records that are demanded in a single request, as well as possibly compile data or construct a computer report to extract data that is responsive to your request. ICEF therefore reserves the right to charge for the full cost to compile records, extract information from an

electronic record or undertake programming to satisfy the request. Cal. Govt. Code section 6253.9(b)(2).

Pursuant to Cal. Govt. Code §6253(c), ICEF hereby notifies you through our office that it will provide the records requested within a reasonable period of time due to the unusual circumstances your request imposes. This request may generate thousands of responsive records. Our client's IT vendor has been tasked to search for and produce these records. Once the records are produced, we will review them to determine if any records are exempt from disclosure.

ICEF estimates it will be able to fulfill the request by October 11, 2019, given the extensive period of time it will take to review email accounts to locate the requested information while also conducting their day to day business.

If you have any questions or need any additional information, please do not hesitate to let us know.

Sincerely,
HANSBERGER & KLEIN
A Professional Law Corporation
